

Abstract title, (centered, font : Arial bold 14)

Presenting Author (underlined)^a, 2nd Author^b, Corresponding Author^{a,*}, ... (centered, font : arial 10)

^a Institution, Street Address, City, Mail Code, Country (1 line per affiliation, centred ; font : arial 9 italic)

^b Another Institution, Street Address, City, Mail Code, Country

Please type or insert your abstract here, using Microsoft Word. (Normal style : left & right justified, arial 10, single spaced). Your abstract should be a maximum of 2 pages, the first for text and the second for figures or images. Then submit it as a *.doc or *.rtf document to mam2016@imec.be

MAM 2016 will be the 25th in a series devoted to research on materials properties and interactions of interconnect and silicide materials. Starting as a workshop on refractory metals and silicides in the 1980's and moving towards materials for advanced metallization in 1995, the 2016 conference also aims to address new challenges in the fields of Materials for Flexible Electronics,

The objective of the conference is to provide a forum for open discussions across fundamental and applied sciences and industrial applications. It is dedicated to international material scientists, process and integration engineers and students, and historically had attendees from universities, research institutions and industries. To meet the progressive downscaling of device dimensions and the demand for more functionality, the challenges fall to material solutions. New and extensive materials research is needed to further allow chip scaling for the 7nm and 5nm nodes as well as to develop novel nanoscale devices.

Do not modify paper size and margins (A4 paper size; left, top, right and bottom margins : 1 inch). Each abstract will occupy one page(recto-verso) in the program booklet. Text outside the margins may be truncated.

Title	font : arial size 14, bold; centred (style : Title 1)
Authors list	font : arial size 10, centred, single spaced Use letter superscripts to identify author's institution, Underline the author who will present your work. Use a * to identify the author to whom correspondence must be sent. Do not forget to give his e-mail address at the bottom of the page.
Institutions	font : arial size 9, italic; centred 1line per institution,
* Corresponding author e-mail address	font : arial size 9, italic, left aligned, using *. To be placed at the bottom of the abstract. An example is given below
Length	2 pages MAXIMUM (1 page recto verso in the program booklet)
Text	font : arial size 10, single-spaced, justified left and right (style : normal)
Eq., Ref. & Fig.	Equations may be inserted in Word-compatible formats and referred as (Eq. 1). Reference numbers in the text should be enclosed in square brackets [1]. Figure references in the text should use arabic numerals such as (Fig. 1) Figures may be inserted in Word-compatible formats.
Reference list	font : arial size 9, left justified. Numbering using arabic numerals followed by a point and space as shown below Use the Physical Review reference format.
